## Marine Corps Air Station Inspection & Preventative Maintenance for a 27.5 kW Solar PV System

MCAS Fitness Center  
Beaufort, SC

Hannah Solar Government Services (HSGS) was selected by Ahtna Technical Services Inc. to inspect and perform the preventative maintenance on a 27.5 kW DC solar PV system, fixated on the roof of the MCAS fitness center in Beaufort, SC. Services provided annually by HSGS for the maintenance of this solar PV system include: inspections of structural, mechanical, and electrical components, inverter testing, system voltage testing, grounding system tests, and module cleaning.

### About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
