31.11 kW Solar PV System

Keller Army Hospital
US Military Academy
West Point, NY

The 31.11 kW roof mounted solar PV system installed at the Keller Army Hospital in West Point, NY provided by Hannah Solar Government Services features Solar World 280 watt modules connected to 2 Advanced Energy 3-TL 20 kW inverters. The array is supported by a Silverback Solar roof mounted system. Hannah Solar Government Services designed, engineered, and built the solar array. This renewable energy system will generate more than 36, 490 kW hours annually.

About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
