168.3 kW DC Solar PV System

VA Sepulveda Ambulatory Care Center
North Hills, CA

The Department of Veteran Affairs (VA) is a leader among federal agencies in striving to reach federal renewable energy goals. The 168.3 kW (DC) solar PV parking canopy installed at the VA Sepulveda Ambulatory Care Center in North Hills, CA features 518 Sunpower Performance Series modules connected to SMA Sunny Tripower inverters and supported by a Sunpower Carport ST mounting system. This solar array was designed, engineered and constructed by Hannah Solar Government Services (HSGS).

About Hannah Solar Government Services:

Hannah Solar Government Services (HSGS) is a Service Disabled Veteran Owned Small Business specializing in the project development, design, installation, and maintenance of commercial and utility scale solar PV systems and electric vehicle charging stations for government, commercial, and utility clients. All solar PV systems are designed by an in-house engineering team and installed by NABCEP certified solar PV installers.
