

TARGET STORE 1829

North Charleston, SC

332-kW Roof-Mounted Solar PV Array

Hannah Solar Government Services (HSGS) was contracted by Greenskies Renewable Energy to design and install and solar photovoltaic (PV) system for a Target store in North Charleston, SC. The 332-kW roof-mounted system features Phono Solar modules that are supported by a Ecolibrium structure and connected to Solectria inverters. This system is part of a total 3 MW systems HSGS has completed for Target stores across South Carolina.

ABOUT US: Hannah Solar Government Services (HSGS) is a Service-Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial clients, HSGS’ breadth of experience includes projects that span the continental United States as well as overseas.

- Project Specifications:**
- Customer:** Greenskies Renewable Energy
 - Project Value:** \$146 K
 - Project Completion:** January 2016
 - Role:** Subcontractor – Designer and Installer

- Equipment Specifications:**
- Modules:** Phono Solar
 - Inverter:** Solectria
 - Structure:** Ecolibrium Solar, Inc.

“HSGS delivered an excellent quality final product that was interconnected to both the end-user-client and the electric power distribution system.”

– *Giuseppe Perniciaro, VP of Construction for Greenskies*
