

FOGEL SERVICES

Ladson, SC

50-kW Solar PV System Roof Array

Hannah Solar Government Services (HSGS) was contracted by Fogel Services to design and install a solar photovoltaic (PV) array on the roof of their facility in Ladson, SC. The system features Trina Solar modules which are connected to Solectria inverters and supported by a Unirac racking system. This roof array will generate more than 57,820-kilowatt-hours (kWh) annually for the heating and cooling company.

ABOUT US: Hannah Solar Government Services (HSGS) is a Service-Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial clients, HSGS' breadth of experience includes projects that span the continental United States as well as overseas.
