

# TRANSITIONS HOMELESS RECOVERY CENTER

Columbia, SC

## 18.9-kW Roof-Mount Solar PV Array

Hannah Solar Government Services (HSGS) was contracted by the Midlands Housing Alliance to design and build a solar photovoltaic (PV) array at Transitions Homeless Recovery Center in downtown Columbia, SC. The 18.9-kW roof-mount system features Canadian Solar modules that are supported by a Unirac racking structure and connected to Solectria Renewables inverters.

**ABOUT US:** Hannah Solar Government Services (HSGS) is a Service-Disabled Veteran Owned Small Business (SDVOSB) leading the way in global energy security by designing and building renewable energy and microgrid systems. HSGS specializes in the design, engineering, construction, and maintenance of solar PV, energy storage, and microgrid systems. Serving government, commercial, industrial clients, HSGS' breadth of experience includes projects that span the continental United States as well as overseas.
